FROM ISMP

Step Up Your Medication Safety Efforts with the Highly Acclaimed

ISMP Practitioner in Residence Program™

All healthcare professionals who currently have or are seeking an expanded role in medication safety for their organization can rapidly advance their safety leadership skills by participating in the new **ISMP Practitioner in Residence Program™**.

Program Overview:

- Rigorous, comprehensive one-week “rotation” at ISMP’s office in suburban Philadelphia
- Tailored to meet specific safety needs of each participant/organization
- Attend presentations on crucial safety issues
- Work closely with ISMP experts on individual projects and learning modules
- Learn ISMP’s unique model for identifying and controlling risk
- Certificate of completion is awarded at the end of the program

Intensive Focus on:

- Medication risk identification
- Actionable error reporting and analysis
- Medication safety team development
- Strategic planning for medication safety
- Effective root cause analysis (RCA)
- Collection and management of data to drive results

ISMP is a nonprofit organization with more than 35 years of experience helping healthcare facilities of all sizes and practice settings implement high-leverage error prevention strategies. Its interdisciplinary experts work collaboratively with all levels of practitioners and administrators to reduce patient harm from medication errors.

Program space is limited.
